

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader maker all over the globe. They are a dedicated producer of spreaders used for a lot of various applications such as the swap bodies, trailers, and handling of containers.

ELME now has over 125 personnel with all engineering is done in house by means of making use of all the newest CAD systems and FEM tools. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the globe.

The ELME product series offers spreaders designed for several container and trailer handling operations. Some of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers and a wide array of attachments.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they made 1150 spreaders by way of making use of quality parts to be able to ensure reliability and top standards. Major characteristics of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
