

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how long and tiresome it will really be to clean-up right after a party, with no help from equipment. Previously, the dirt from upholstery and carpets had to be beat out of them by hand; brushes, cleaning cloths and brooms were the best cleaning products back then.

P.A. Fisker, the man who established Nilfisk-Advance, was actually an electrical engineer who loved working with electrical motors. Founding the business in the year 1906, he started to make motors in order to drive drills, fans, machine tools and coffee grinders. Mr. Fisker's vision from the start was to have a worldwide business selling products internationally.

The Nilfisk C1 was a tremendous breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and can be operated by a single person. This creation came in a time where numerous cleaning machines were huge and required at least 4 operators, thus, the Nilfisk C1 changed everything and evolved the method we clean forever. The genius behind these very first cleaning equipment remains unparalleled. Cleaning machines offer an excellent solution to an existing problem; things get dirty and must be cleaned on a regular basis, without a lot of effort.

Slowly but steadily, Nilfisk-Advance developed throughout the decades. In the 1980s, this growth truly occurred the time the company became a part of the NKT Group. Their new owners' drive and concentration made Nilfisk-Advance take a huge leap forward within the business, aiming to be among the biggest universal players in the market of professional cleaning equipment. Nilfisk-Advance is now represented in every part of the world due to steadily obtaining a lot of smaller companies to be able to grow their product range and presence in new markets. They are proud to provide a variety of cleaning solutions to meet each and every requirement.
