

## TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, lift trucks play a major role for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained popularity after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread globally.

In 1949, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the business is simply referred to as TCM Corporation. Through the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the trade. TCM began constructing forklift manufacturing sites outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures many models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all around the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading business.
