

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with parts covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your components needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has selected the very economical and advantageous structure of "Lean Production" for its assembly facilities and application of resources. This structure was established to acknowledge the most effective method of manufacturing facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering program combines innovative product development and provides improved consumer support and service within the industry.
